PREMIUM BUILD

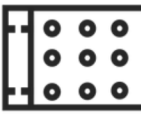

MADE IN THE USA

Built In Ligonier, Indiana by a group of dedicated Innovators who are questioning the standard American RV and pushing one of the best trailers In the world Into the market. A manufacturing process that puts attention to detail over quantity, and a dedicated team ready to help you when you need It.

MODERN CABINETRY

Giving the Reboot a modern, cozy feel the cabinetry makes the space feel like home, and gives a proper place for all of your adventuring goods. All cabinetry now comes with locking latches to ensure your stuff stays safe no matter what rocky trails you may encounter.

HUCK RIVET ALUMINUM FRAME

Built by MORryde In America, this custom built aluminum frame Is built with high quality metal, and has been tested on the most extreme military track courses In the world. This frame Is overbuilt so you never have to worry If It can handle the Intense terrain you may encounter. Huck riveting Is used for semi-trucks and suspension bridges and ensures a perfect build everytime.

STRONG WALLS

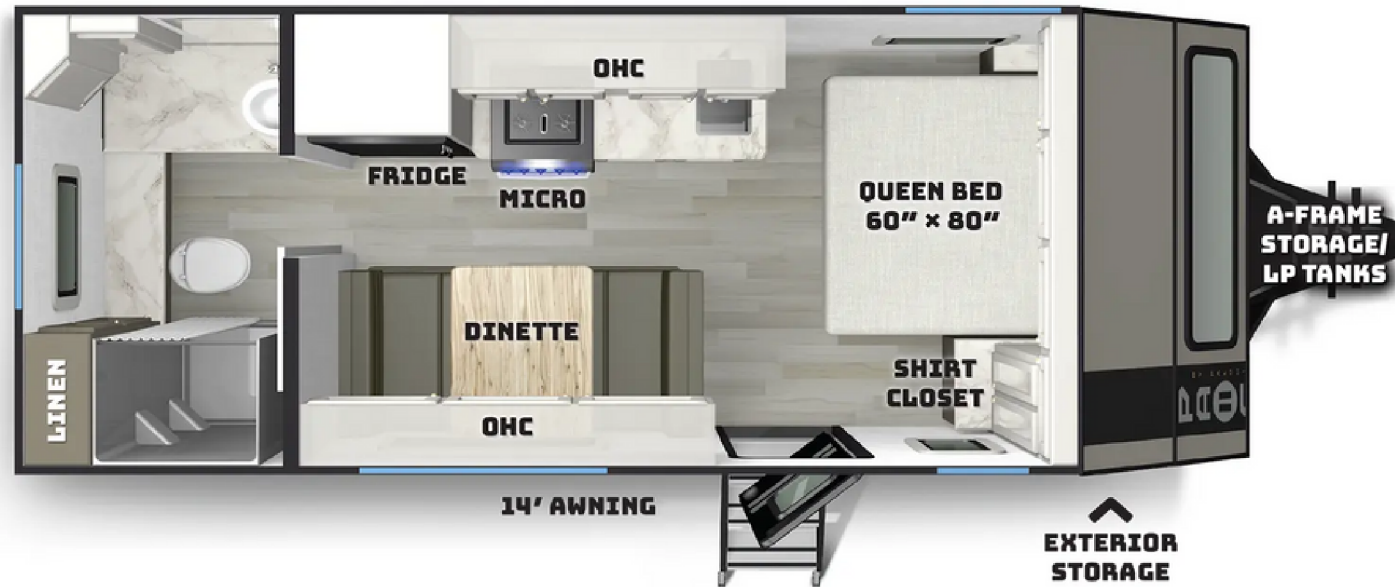

The Pause Reboot doesn't use any wood it's exterior construction like most RVs. The walls are built with a strong, laminated fiberglass backed by Azdel, including a vapor barrier that provide incredible insulation which makes the trailer stay the temperature you need it to.
